Skills

Languages - JavaScript, HTML, CSS, Python, SQL, Mongo, JSON, EJS, Ruby
Libraries and Frameworks - React, Express.js, Django, Jquery, Bootstrap, Tailwind, Ruby on Rails
Database - MongoDB, PostgreSQL, MySQL

Projects

dustLoop | Music Sample Storage App
Ruby/Ruby on Rails, PostgreSQL, Bootstrap   09/2022
- Designed and developed a full-stack web app with Ruby on Rails that allows users to create and save personalized lists of original samples + current usage. Acts as a sample database with sharing capabilities
- Full CRUD and RESTful routes, multiple models, log in/log out and signup, search and sort, pagination. Rails connected to PostgreSQL for back-end

Techy | Tech Resale App
Python, Django, PostgreSQL, React, Bootstrap   09/2022
- Designed and developed a full-stack web app that allows users to create an account in order to sell items
- Full login authentication, CRUD functionality, implemented back-end in Django w/ PostgreSQL database

BOS2LAX | Travel Suggestion Guide
React, Express, Node, EJS, Mongoose, MongoDB Atlas   09/2022
- Full-stack application with CRUD functionality and RESTful routes. Implemented back-end with MongoDB Atlas

Coffee Compendium | Coffee Drink Recipe App
HTML, CSS, Bootstrap, MongoDB, Mongoose, Express, EJS   08/2022
- Full-stack application with full CRUD functionality, allows users to submit their own coffee drink recipes and to edit existing ones

Professional Experience

Reveleer | Glendale, CA
Intake Representative   01/2021-05/2022
- Reviewed medical records, matched to pursuits in accordance with the annual HEDIS audit to document retrieval route processing efficiently. Exceeded daily and weekly quotas and assisted in special projects
- DocQA - tasked with parsing and processing medical records further past Intake. Surpassed quota by over 133% and reviewed and submitted 150-250 documents daily

RISARC | Burbank, CA
Revenue Cycle Payment Poster   09/2018-11/2020
- Led Kaiser Pharmacy team to process EOB's, resolve discrepancies, perform account analysis and reconciliation. Single-handedly improved accuracy and workflow in monthly billing and volume of payments posted, responsible for 300-700 payments posted daily, on average. Assisted the MLK Hospital team in similar fashion
- Data Engineering - Used MySQL to create weekly reports that consolidated all of our data - payments posted, denials sent out. Exported CSV files and engaged in file transfers with Kaiser to properly send patient/billing data

Ghostwriter and Editor | Freelance   2010-2021
- Completed assignments based on client request. Researched and wrote student essays, articles, research papers, and letters of recommendation to client's satisfaction
- Proofread and edited assignments checking for writing skills, proper grammar, punctuation, and structure

Education

University of California, San Diego | B.A. Political Science   2011
General Assembly | Software Engineering Immersive Program   2022
